

End of Semester Presentation
IT 3610
IT Azure, Fall 2010

Due Date: November 29, 2010

Purpose: To showcase your presentation skills including the ability to use PowerPoint as a presentation tool.

Scenario: You will be working with a group as talented as you next semester. Prepare a presentation as a way of introducing yourself to the class with information you have not shared with them before. These presentations will be made in class on the date listed above. In addition to the length (limited to 5 minutes), the other absolute requirement is that you support your presentation with Power Point.

Required content:

- A sampling of talents, gifts, skills you bring to the team
- Your MBTI profile and what it means (be brief) *
- Something creative you've done
- A challenge you've faced and what you learned from it.

Additional content: Choose two

- Educational experience including awards won (don't list them all)
- Work experience (you might select something that shows your skills)
- What you like to do for recreation
- Where you like to travel
- Hobbies/interests
- Other: Your choice.

Time: 5 – 7 minutes

You're excited about the prospect of telling this group about yourself. You also like the idea that this isn't a stilted, totally serious presentation but one in which you can let your tasteful creativity emerge. Your goal is to leave your audience saying they are glad they had the opportunity to get to know you better and to understand how best to work with you.

DO NOT USE THE TIMED PRESENTATION OPTION (THE ONE WHERE YOUR SLIDES ADVANCE AUTOMATICALLY).

- MBTI will be covered in class in late October
